Good morning,

Just wanted to follow-up on status of finalizing the policy. We targeted Feb. 1st as the day to implement. Are we going to be able to make it?

If all good, please provide me a copy of the policy on BLM letterhead along with the template and we can get it distributed through NMOGA. I can, also, send a copy to the ranchers that were involved in the process.

Thank you!

Regards,

Yo

Happy Wednesday,

Please review the attached next version (V7) of the temp water line policy. This version incorporates changes requested by Robert in the non-compliance section.

Also attached is the template to be used for requesting authorization as well as notifying of installation and removal.

Please let us know if this version is acceptable to the BLM and if it can be determined "Final". If "final", BLM can then transfer the language to BLM letterhead.

Thank you for your patience in working with industry and ranchers on this document.

Sincerely,

Yolanda Perez
